Kind of Blue isn't merely an artistic highlight for Miles Davis, it's an album that towers above its peers, a record generally considered as the definitive jazz album. To be reductive, it's the Citizen Kane of jazz -- an accepted work of greatness that's innovative and entertaining. That may not mean it's the greatest jazz album ever made, but it certainly is a universally acknowledged standard of excellence.

Miles Davis: 'Kind of Blue' : NPR
It seems the 1959 stereo pressings of this album had so many label variations. I assume that whatever is closest to the label of the demo version (https://www.discogs.com/Miles-Davis-Kind-Of-Blue/release/5795305), with the tracks on Side B wrongly interchanged, but red in color instead of white, would be the earliest pressings. Some 1959 stereo pressings had the title "Kind of Blue" occupying one line only on both sides (like in the promo; I assume these are the earlier 1959 pressings ...

Blue is a primary color that can be combined with red and green to make all other colors. The eye perceives short wavelengths of light between 450 and 495 nanometres as different hues of blue. This makes much of nature blue including the sky and ocean due to an effect known as Rayleigh scattering whereby small particles reflect shortwave lengths of blue light better than long wavelengths such ...
